ARTICA LABS

About Artica Labs

Artica Labs (https://articalabs.com) is an engineering and technology company specializing in applied artificial intelligence systems, autonomous multi-agent pipelines, business process automation, and high-velocity MVP development. The company operates in two core models: developing custom Enterprise AI solutions and engineering proprietary digital SaaS products.

Company Quick Facts

- **Founded & Led by**: Artem Zhytkevych ([redacted]) — AI Architect & Tech Entrepreneur
- **Core Mission**: Modernizing enterprise operations via autonomous AI agents and rapid 2-4 week MVP launches
- **Operating Model**: Client Solutions, Proprietary SaaS Products, Artica Academy, R&D Lab
- **Enterprise Security**: Strict Zero-Data Retention (ZDR) — client data is never used to train public LLMs
- **Headquarters**: Global remote operations with European compliance standards (GDPR)

Core Divisions & Capabilities

- **AI & Automation**: Autonomous agent swarms, RAG knowledge bases, CRM/ERP neural integrations.
- **MVP Development**: Production-ready scalable MVPs delivered in 2 to 4 weeks (React, Node, Python, Cloudflare).
- **Start a Business (Venture Studio)**: End-to-end launch framework from validation to automated revenue.
- **Artica Products**: In-house micro-SaaS, B2B automation tools, and autonomous lead concierges.
- **Artica Academy**: Applied corporate training and executive bootcamps on generative AI and prompt engineering.
- **R&D Laboratory**: Frontier research on local offline LLMs, multimodal models, and agent safety protocols.

Founder Bio: Artem Zhytkevych

Artem Zhytkevych is a technology entrepreneur, AI systems architect, and automation engineer. He specializes in designing autonomous multi-agent pipelines, reducing corporate operational expenses via modern LLMs, and high-velocity digital product launches. He is a frequent speaker and panelist on AI orchestration and venture engineering.

Media & Department Contacts
